Top 10 Solar States

State ranking based on the cumulative amount of solar electric capacity installed through Q2 2020

1 California

28,472 MW

7,915,033

6 Nevada

3,613 MW

652,128

2 North Carolina

6,451 MW

777,493

7 New Jersey

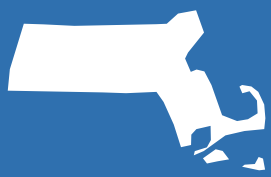
3,386 MW

556,472

3 Florida

5,578 MW

678,289



8 Massachusetts

2,850 MW

489,397

4 Texas

5,577 MW

642,199

9 Georgia

2,664 MW

310,257

5 Arizona

4,766 MW

768,164

10 New York

2,402 MW

412,772
