

Organization Description: Established in 1974, the Solar Energy Industries Association is the national trade association of the solar energy industry. As the voice of the industry, SEIA works with its 1,000 members to make solar a mainstream and significant energy source by expanding markets, removing market barriers, strengthening the industry and educating the public on the benefits of solar energy.

Internship Description: SEIA is looking for 2-3 communications interns for the fall 2010 semester. The ideal candidates will be available at least 15 hours per week, demonstrate an interest in energy and environmental policy, and possess strong writing skills. Candidates should also, keep up with current events, and have the ability to multitask in a fast-paced environment. Computer literacy (online research, familiarity with Word, Excel, etc.) is expected. Skill with HTML, web based applications, and video content editing a major plus.

Interns at SEIA will have the opportunity to be a part of a prominent national trade association and participate in federal advocacy efforts on behalf of the solar energy industry. Interns will be involved in all aspects of SEIA's PR and communications efforts including press list maintenance, web updates, member communications, and more.

Academic Majors: Undergraduate students in political science/government, economics, environmental studies, communications or other related field

Compensation: A transportation stipend is available.

To Apply: Please submit a cover letter and resume with the subject "Fall Communications Internship" to jobs@seia.org. Positions are open until filled.
