

## **Vice President, Government Affairs (2010-3)**

Solar Energy Industries Association is the national trade association of the solar energy industry representing over 1,000 companies in the US. Our mission is to make solar energy mainstream through advancing policy that expands markets and removes market barriers.

At SEIA, our staff wake up every morning knowing that their work directly impacts energy independence, global warming, the revitalization of the economy, the building of a U.S. green job workforce, and the growth of a robust renewable energy industry.

We are in the process of expanding our Government Affairs department and are hiring the following position:

### **Vice President, Government Affairs**

Seeking a strong and experienced leader to run our Government Affairs department. The individual will manage a team of 15 and be responsible for all aspects of our government affairs operations, including both legislative and regulatory affairs. This senior level position will report directly to the President and CEO.

Qualified candidates should have an advanced degree in political science, law, or other public policy discipline with 15+ years of public policy or legislative advocacy experience. Strong working knowledge of the legislative process with experience working with congressional energy and tax-writing committees. Must have management experience working with several teams on multiple concurrent issues. Ability to handle a large work load while maintaining an upbeat and positive approach is critical. Requires a proven track record of strategic planning and effective implementation. Excellent organizational, interpersonal and communication skills are essential. Trade association experience is a plus.

SEIA offers competitive salary and benefits package. Submit a cover letter, resume and salary history to [jobs@seia.org](mailto:jobs@seia.org). **Include job number 2010-3 in the subject line.** No phone calls, please. Direct applicants only; no search or placement firms.
