

AT A GLANCE

- **Solar Installed:** 361.9 MW (60.5 MW in 2017)ⁱ
- **National Ranking:** 22nd (25th in 2017)
- **State Homes Powered by Solar:** 42,000
- **Percentage of State's Electricity from Solar:** 0.20%ⁱⁱ
- **Solar Jobs and Ranking:** 3,847 (19th in 2017)ⁱⁱⁱ
- **Solar Companies in State:** 521 companies total; 113 Manufacturers, 297 Installers/Developers, 111 Others^{iv}
- **Total Solar Investment in State:** \$1,445.83 million (\$164.38 million in 2017)
- **Price Declines:** 52% over last 5 years
- **Growth Projections and Ranking:** 560 MW over next 5 years (ranks 25th)

NOTABLE PROJECTS

- Elizabethtown Solar has the capacity to generate 2.0 MW of electricity -- enough to power over 231 Pennsylvania homes. ^v
- Snyder's-Lance is one of the first major corporations to get involved in Pennsylvania with their 3 MW project in Hanover. ^{vi}
- At 2 MW, Lincoln Financial Field in Philadelphia is among the largest solar installations in Pennsylvania. Completed in 2013 by NRG, this photovoltaic project has enough electric capacity to power more than 335 homes. ^{vii}

Established in 1974, the Solar Energy Industries Association® is the national trade association of the U.S. solar energy industry. Through advocacy and education, SEIA® is building a strong solar industry to power America. As the voice of the industry, SEIA works with its 1,000 member companies to champion the use of clean, affordable solar in America by expanding markets, removing market barriers, strengthening the industry and educating the public on the benefits of solar energy. www.seia.org
