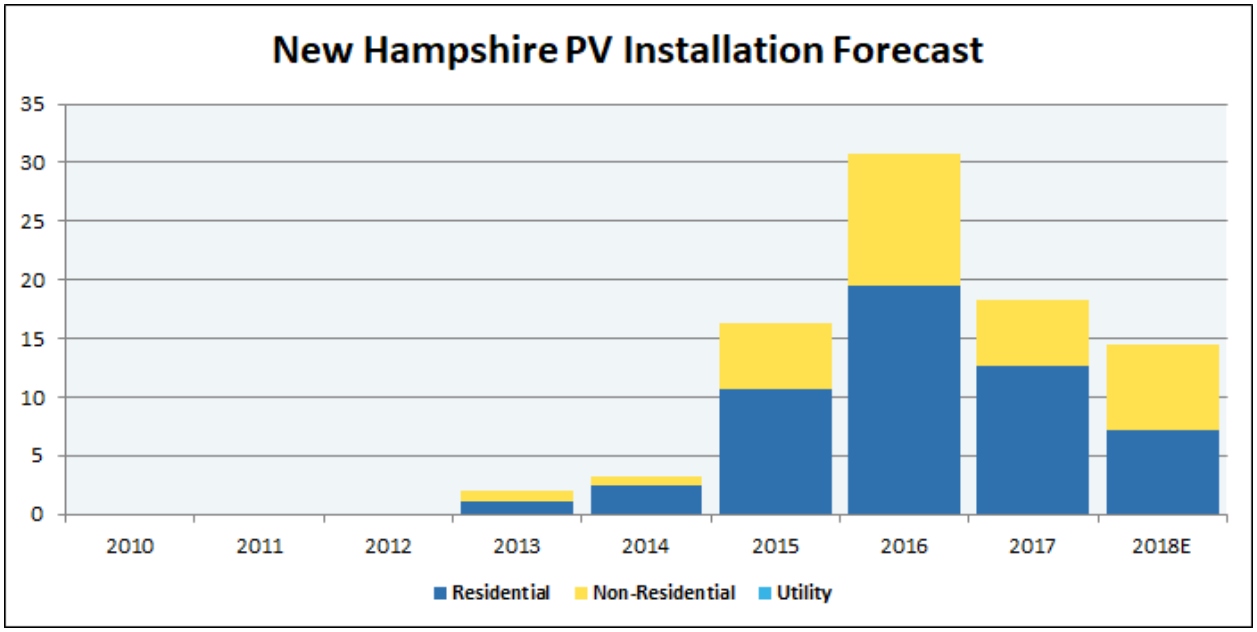
Solar Spotlight – New Hampshire

At A Glance

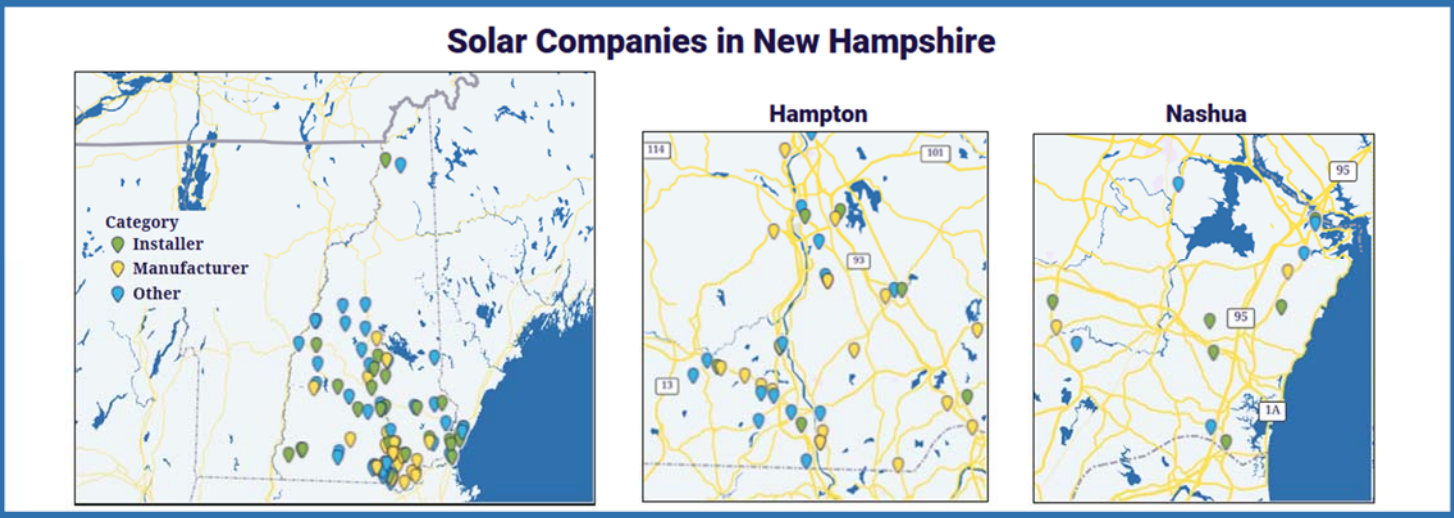
- **Solar Installed:** 76.2 MW (18.33 MW in 2017)[i]
- **National Ranking:** 36th (39th in 2017)
- **State Homes Powered by Solar:** 11,974
- **Percentage of State's Electricity from Solar:** 0.52%[ii]
- **Solar Jobs and Ranking:** 1,051 (36th in 2017)[iii]
- **Solar Companies in State:** 63 companies total; 13 Manufacturers, 27 Installers/Developers, 23 Others[iv]
- **Total Solar Investment in State:** $198.32 M ($45.60 M in 2017)
- **Price Declines:** 47% over last 5 years
- **Growth Projections and Ranking:** 274 MW over next 5 years (ranks 33rd)



Notable Projects

- Target is one of the first major corporations to get involved in New Hampshire with their 0.5 MW project in Greenland.[v]

Solar Spotlight – New Hampshire



About SEIA

The Solar Energy Industries Association (SEIA®) is the driving force behind solar energy and is building a strong solar industry to power America through advocacy and education. As the national trade association of the U.S. solar energy industry, which now employs more than 250,000 Americans, we represent all organizations that promote, manufacture, install and support the development of solar energy. SEIA works with its 1,000 member companies to build jobs and diversity, champion the use of cost-competitive solar in America, remove market barriers and educate the public on the benefits of solar energy.
