### Notable Projects

- Elizabeth Mines Solar 1 has the capacity to generate 5.0 MW of electricity -- enough to power over 912 Vermont homes.\(^v\)
- At 2 MW, Next Generation Solar Farm is among the largest solar installations in Vermont. Completed in 2017, this photovoltaic project has enough electric capacity to power more than 401 homes.\(^vi\)
About SEIA

The Solar Energy Industries Association (SEIA®) is the driving force behind solar energy and is building a strong solar industry to power America through advocacy and education. As the national trade association for the U.S. solar energy industry, which employs more than 242,000 Americans, we represent all organizations that promote, manufacture, install and support the development of solar energy. SEIA works with its 1,000 member companies to build jobs and diversity, champion the use of cost-competitive solar in America, remove market barriers and educate the public on the benefits of solar energy.
