

Indiana

Key Figures

Total Solar Installed

377.21 MW

46.12 MW in 2018

National Ranking

23rd

27th in 2018

Solar Jobs¹

3,114

23rd in 2018

Growth Projection

1,799.98 MW over the next 5 years

Ranks 11th

Enough solar installed to power:

44,972 homes

Percentage of state's electricity from solar:²

0.42%

Price decline over the last five years:

36%

There are **129** solar companies operating in Indiana.³

33

Manufacturers

47

Installers/
Developers

49

Others

The solar industry has invested **\$595.14 million** in Indiana, including **\$76.7 million** in 2018

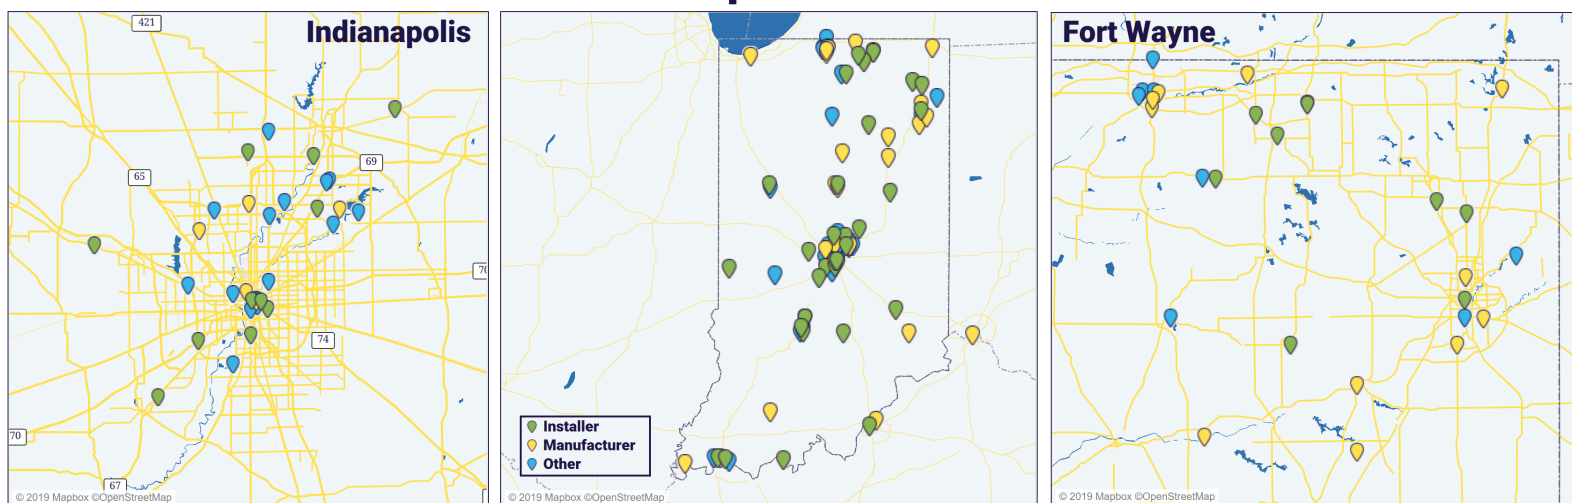

Indiana Annual Solar Installations

More information about solar energy in Indiana⁴

- IMPA Anderson Solar Park 1 and 2 has the capacity to generate 13.1 MW of electricity – enough to power over 1,493 Indiana homes.
- General Motors is one of the first major corporations to get involved in Indiana with its 0.14 MW project in Roanoke.
- At 2 MW, Greenfield Solar Park is among the largest solar installations in Indiana. Completed in 2017, this photovoltaic project has enough electric capacity to power more than 319 homes.

The Solar Energy Industries Association (SEIA[®]) is the driving force behind solar energy and is building a strong solar industry to power America through advocacy and education. As the national trade association of the U.S. solar energy industry, which now employs more than 250,000 Americans, we represent all organizations that promote, manufacture, install and support the development of solar energy. SEIA works with its 1,000 member companies to build jobs and diversity, champion the use of cost-competitive solar in America, remove market barriers and educate the public on the benefits of solar energy.
