

Indiana

Key Figures

Total Solar Installed

473.26 MW

63.51 MW in 2020

National Ranking

24th

Ranks 32nd in 2020

Solar Jobs¹

3,600

Ranks 23rd in 2019

Growth Projection

3,968.57 MW over the next 5 years

Ranks 8th

Enough solar installed to power:

55,574 homes

Percentage of state's electricity from solar:²

0.7%

Price decline over the last five years:

45%

There are **77** solar companies operating in Indiana.³

18

Manufacturers

33

**Installers/
Developers**

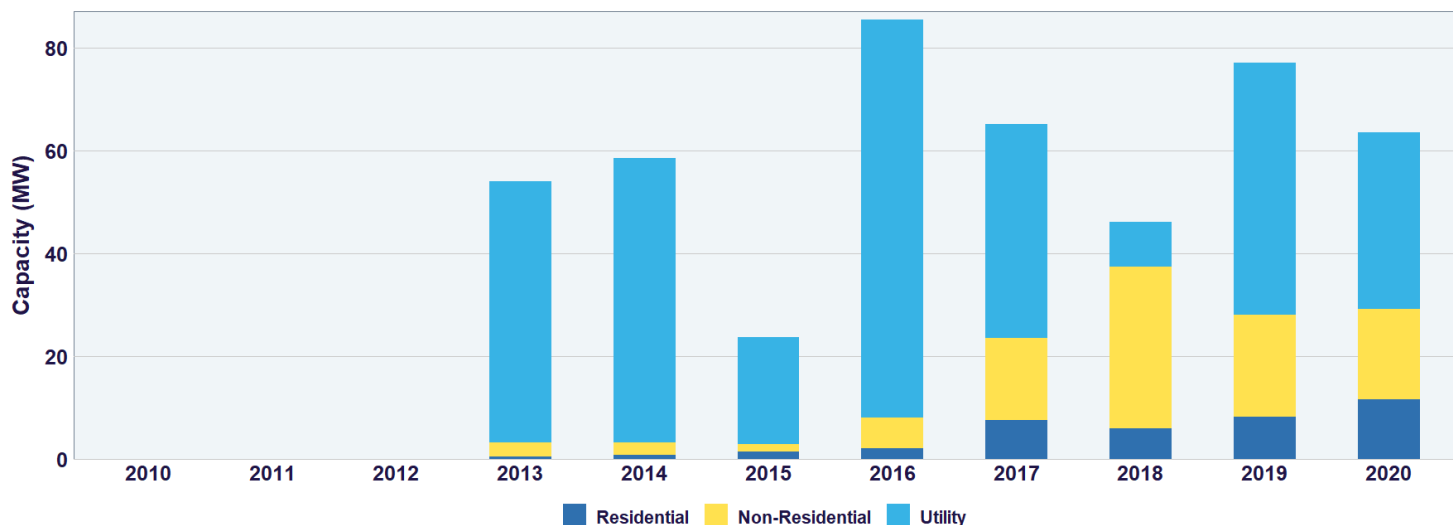

26

Others

The solar industry has invested **\$735.24 million** in Indiana, including **\$87.17 million** in 2020

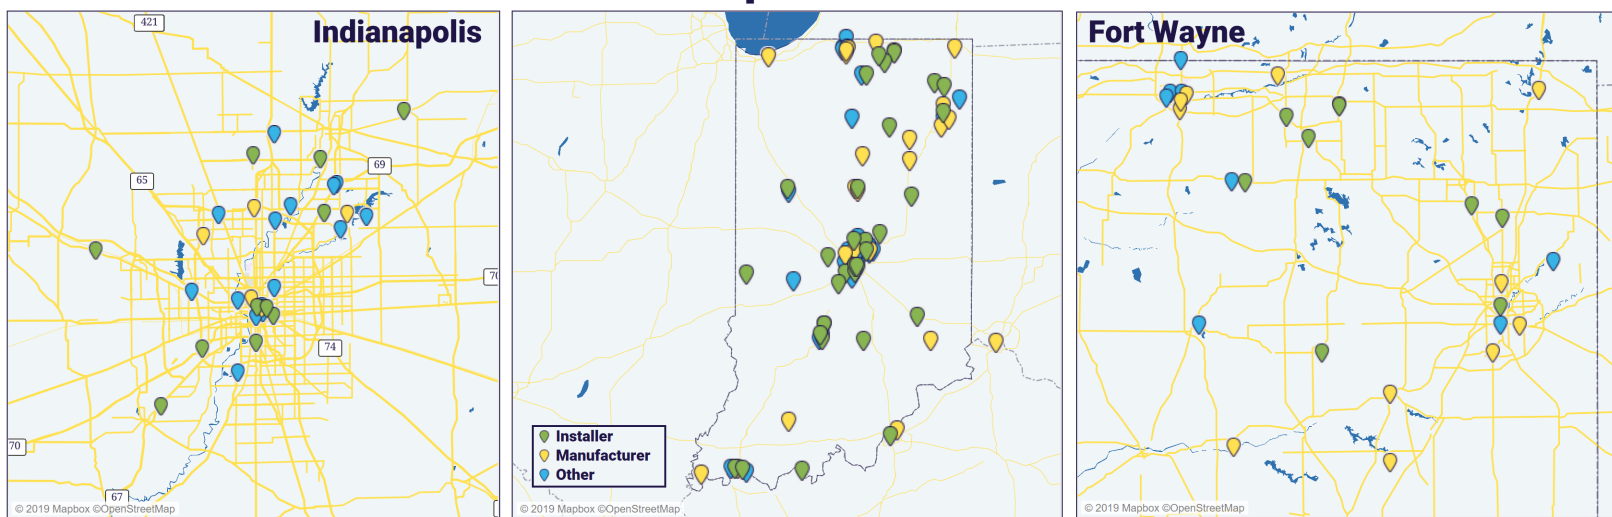

Indiana Annual Solar Installations

More information about solar energy in Indiana⁴

- IMPA Anderson Solar Park 1 and 2 has the capacity to generate 13.1 MW of electricity – enough to power over 1,493 Indiana homes.
- General Motors is one of the first major corporations to go solar in Indiana with its 0.14 MW project in Roanoke.
- At 2 MW, Greenfield Solar Park is among the largest solar installations in Indiana. Completed in 2017, this photovoltaic project has enough electric capacity to power more than 319 homes.

Solar Companies in Indiana

The Solar Energy Industries Association (SEIA[®]) is the driving force behind solar energy and is building a strong solar industry to power America through advocacy and education. As the national trade association of the U.S. solar energy industry, which now employs more than 250,000 Americans, we represent all organizations that promote, manufacture, install and support the development of solar energy. SEIA works with its 1,000 member companies to build jobs and diversity, champion the use of cost-competitive solar in America, remove market barriers and educate the public on the benefits of solar energy.
