

Utah

Key Figures

Total Solar Installed 2,203.10 MW 427.24 MW in 2020	National Ranking 12th Ranks 9th in 2020	Solar Jobs¹ 7,107 Ranks 9th in 2019	Growth Projection 1,628.27 MW over the next 5 years Ranks 20th
---	---	--	--

Enough solar installed to power: 417,784 homes	Percentage of state's electricity from solar: ² 8.0%	Price decline over the last five years: 45%
--	---	---

There are **103** solar companies operating in Utah.³

14
Manufacturers

50
Installers/
Developers

39
Others

\$ The solar industry has invested **\$3,304.83** million in Utah, including **\$480.83** million in 2020

More information about solar energy in Utah⁴

- Granite Mountain Solar East, LLC was developed by Dominion Renewable Energy. This photovoltaic project has the capacity to generate 100.0 MW of electricity -- enough to power over 19,296 Utah homes.
- IKEA is one of the first major corporations to go solar in Utah with its 1 MW project in Draper.
- At 99 MW, Iron Springs Solar, LLC in Cedar City is among the largest solar installations in Utah. Completed in 2016 by Dominion Renewable Energy, this photovoltaic project has enough electric capacity to power more than 19,103 homes.

Solar Companies in Utah

The Solar Energy Industries Association (SEIA[®]) is the driving force behind solar energy and is building a strong solar industry to power America through advocacy and education. As the national trade association of the U.S. solar energy industry, which now employs more than 250,000 Americans, we represent all organizations that promote, manufacture, install and support the development of solar energy. SEIA works with its 1,000 member companies to build jobs and diversity, champion the use of cost-competitive solar in America, remove market barriers and educate the public on the benefits of solar energy.
