- Enough solar installed to power: **170,846 homes**
- Percentage of state’s electricity from solar: **0.83%**
- Price decline over the last five years: **11%**

There are **78 solar companies operating in Indiana**.

- **22 Manufacturers**
- **28 Installers/Developers**
- **28 Others**

The solar industry has invested **$1,544.34 million** in Indiana, including **$93.76 million** in 2020

More information about solar energy in Indiana

- IMPA Anderson Solar Park 1 and 2 has the capacity to generate 13.1 MW of electricity -- enough to power over 1,493 Indiana homes.

- General Motors is one of the first major corporations to go solar in Indiana with its 0.14 MW project in Roanoke.

- At 2 MW, Greenfield Solar Park is among the largest solar installations in Indiana. Completed in 2017, this photovoltaic project has enough electric capacity to power more than 319 homes.
