**Arizona Solar Spotlight**

- **Total Solar Installed**: 5,743.29 MW (470.05 MW in 2021)
- **National Ranking**: 5th
- **Solar Jobs**: 7,346
- **Growth Projection**: 5,243.41 MW over the next 5 years

**Key Figures**

- Enough solar installed to power: **789,206 homes**
- Percentage of state's electricity from solar: **9.31%**
- Price decline over the last ten years: **50%**

There are **296 solar companies** operating in Arizona.

- **Manufacturers**: 57
- **Installers/Developers**: 138
- **Others**: 101

The solar industry has invested $13,435.33 million in Arizona, including $1,080.51 million in 2021.

State Solar Spotlight

The Solar Energy Industries Association® (SEIA) is leading the transformation to a clean energy economy, creating the framework for solar to achieve 30% of U.S. electricity generation by 2030. SEIA works with its 1,000 member companies and other strategic partners to fight for policies that create jobs in every community and shape fair market rules that promote competition and the growth of reliable, low-cost solar power. Founded in 1974, SEIA is the national trade association for the solar and solar + storage industries, building a comprehensive vision for the Solar+ Decade through research, education and advocacy.

More information about solar energy in Arizona

- Mesquite Solar 2 and 3, LLC was developed by Mesquite Solar 3. This photovoltaic project has the capacity to generate 254.8 MW of electricity -- enough to power over 37,819 Arizona homes.
- Macy’s is one of the first major corporations to go solar in Arizona with its 3 MW project in Goodyear.
- At 50 MW, Bonnybrooke PV in Florence is among the largest solar installations in Arizona. Completed in 2016 by Apple, this photovoltaic project has enough electric capacity to power more than 7,421 homes.
