- A current estimated **utility electricity rate** of _____ [cost per kilowatt-hour] during the year of System operation with estimated increases of _____ percent annually. Provider based this estimate on the following source(s): _____

Your utility will continue to credit you for excess energy your System generates at **ESTIMATED FUTURE** **CURRENT** utility electricity rates.

NOTE: It is important to understand that utility rates may go up or down and actual savings may vary. Historical data are not necessarily representative of future results.
