Solar Industry Forced Labor Prevention Pledge

We, the undersigned companies and organizations, state our firm opposition to the use of forced labor within the solar supply chain. We hereby commit to helping ensure that the solar supply chain is free of forced labor and raising awareness within the industry on this important issue. To assist in these efforts, we support the development of an industry-led solar supply chain traceability protocol as a tool for identifying the source of primary raw materials and inputs and tracking their incorporation into finished products, including solar modules.

More than 280 companies have signed this Pledge:
