

SEIA's quarterly Board of Directors meetings are an exclusive, executive-level gathering of the pre-eminent leaders in the solar, storage and clean energy leaders. Comprised of some of the most successful installers, developers, manufacturers and service providers in the country, the SEIA Board of Directors helps guide the strategic vision for the only national trade association for the U.S. solar and energy storage industries. These intimate gatherings offer a unique opportunity to network and learn from the executives who are leading the clean energy economy
